PROJECTS

Film Folio - A Movie Streaming Platform : [code](#) | [preview](#)

- Developed a cutting-edge crowd sourced video streaming platform designed to deliver an immersive cinematic experience to users worldwide. Built using the MongoDB, Express, React, Node stack.
- Streamlined video upload and retrieval processes by leveraging **Multer** and **Grid-FS buckets**, **reducing** memory usage and enhancing system performance through **chunk-based** data exchange.
- **Features:** Search and Discovery, Stream movie, Upload and Download, Watchlist

ProctoPulse – an Exam Proctoring System : [code](#) | [preview](#)

- Developed an **Machine Learning** based exam proctoring system utilizing **YOLO** implementation for real-time face detection and **Face net** for facial recognition.
- Implemented a secure face verification process using image processing and a restricted Exam environment to combat **impersonation** in online exams.
- **Tech Stack** : React ,Node , Express , Fast-Api , MongoDB , JWT

RoadShare : a ride fare splitting app : [code](#)

- Developed a ride cost splitting app that uses **GPS** and **vehicle mileage prediction** to calculate precise ride costs, ensuring a fair and transparent fare-splitting system among passengers.
- Streamlined distance measurement using Gps and **mapbox Api**.
- Tech stack : React native , node , express , mapbox api , firebase .
- **Features:** Fuel consumption prediction , share ride , fair cost splitting.

ACHIEVEMENTS

- Achieved **4-star** max (max 1812) on code chef . [dp_nothing](#)
- Successfully Solved over **500+** Problems Collectively on Leetcode , Gfg , codechef.
- **Earned Certificates** : Meta back-end developer professional certificate. [🔗](#)
: Hackerrank Problem Solving Certificate. [🔗](#)

EXPERIENCE

Intern : Videodubber.ai

May 2024 – June 2024

- Worked as a web developer
- Handled site migration from html/jinja2 and flask to nextjs. Used static site generation and react states to reduce site load times and increase performance.
- Reduced Time to first byte by **33.60%**, while First Contentful Paint improved by **27.41%**.

Contributor : Girl script summer of code

May 2023 – Aug 2023

- Worked as a Contributor in summer of 2023.
- Developed and implemented new features for 3 open-source projects.

SKILLS

- Core Skills : DBMS, Operating System , OOP, algorithms ,data structures
- Programming Languages : C, C++, Html/CSS ,JavaScript
- Database : MySQL, MongoDB
- Development : React , Node, Express , fast-Api
- Tools : Git , GitHub , Api testing , firebase , Insomnia , Docker

EDUCATION

B.Tech. - Computer Science - **CGPA 8.8**

2021 - May 2025

Dharmsinh Desai University, Nadiad
